RENEWABLE ENERGY PROJECT

Student Interns Wanted

One or two student interns are needed for a renewable energy project to take place over spring (part time) and summer (full time) of 2009. Stipend will be \$10.00 per hour.

The project will consist of designing, procuring, and installing a solar energy system for an off-grid BLM facility located in the King Range National Conservation Area.

The ideal applicant will be a student majoring in environmental resources engineering who has completed lower division coursework and thermodynamics. Students in other science majors are encouraged to apply as well. Experience with solar energy and/or construction is a plus.

*This project is co-sponsored by the
U.S. Bureau of Land Management and the
Schatz Energy Research Center.*

*We expect funding for this project. Hiring of students
will be contingent on receiving these funds.*

To apply, please bring your 1-page résumé with cover letter to:

Schatz Energy Research Center, University Annex Room 154C

or apply via e-mail to: serc@humboldt.edu

Application deadline: 4 p.m. Friday, December 5
