

Building Performance Institute (BPI) Building Analyst Professional Training

Do you have basic construction skills but would like to “green” them up and expand your work opportunities? Take the 5-day Building Analyst Professional Course. The course covers everything you need to know to pass the certification exams, including:

- Introduction to Energy Auditing
- House as a “Green” System
- Blower Door Testing
- Health/Safety Inspection and Testing
- Auditing and Analyses Concepts
- Much more!
